DEVELOPMENT PROGRAM

NO 4

LIBRARY

After three revisions in plans, the final specifications for the new addition to the Gray Memorial Library.

It is to be the new library, which will be received by the College for the completion of the new wing. Mr. Martin has stated that the new construction will be in by September the first, and the addition will be completed by next summer.

The new wing of the library, long needed, will receive all the new books, periodicals, and newspapers will be deposited in a suitable building, etc., concerning David G. Collins.

Mr. A. H. O'Call is the contractor and architect for the project, and will be in charge of the work from New York.

A larger library will offer greater opportunities to the students, as well as adding to the prestige of the college's physical plant.

DANCE

Be making plans to attend the Mid-Summer Frolic Dance, to be held July 20 on the Patio of the David G. Collins Student Union! The Dance Committee is spending many hours on planning and organizing this affair, and it should well afford a good evening for all who attend.

"STACKS"

by Feature Editor/Editor H. R.

When arriving in Davidson you paid a bill. You paid several bills, in fact. The greatest bill that you remember was called a laundry bill, which, you were assured, would cover your laundry for the entire year. This time you planned to go to the school.

There in (covered) the other way go?

For girls. For boys, "stacks" has been closed. They have been taking a vacation from laundering. (As you see)

The Summer Development Program of Davidson College is bringing many changes and improvements to the face of the campus. Dr. Grier Martin, in a recent interview, listed the plans that are now in the process of being carried out for this Summer Program.

1. East, West, and Watts dormitories are being re-modeled, this being one of the facets of the program with which the students are familiar.

2. The exteriors of Watts and West dormitories have been painted, while the entirety of East has been repainted.

3. The exteriors have been cleaned on all the dormitories, following student request.

4. Five walls are being constructed in the three aforementioned dorms, closing the front and rear stair walls off from the halls, similar to the plan found in New dormitory.

5. The basement shower baths in East and West dormitories have been tiled.

6. A process known as "pointing" -- replacing old and cracked mortar along the steps, columns, and cornices -- is being used on Chambers building. This is the first time this has been done in thirty years. The building is also being steam-cleaned.

7. The Jarvey Memorial language laboratory is being installed in the old Quadrangle Room on the third floor of Chambers. The lab will be equipped with soundproof booths and a laborer to system of monitored tape recorders. This will be a most valuable asset to the language departments.

8. The field commonly known as the "lower drill field" is being expanded to meet the requirements of a full-length soccer field, and the dump heap at the end of the field is being removed -- finally.

9. A new parade green is being constructed for the convenience of all "roll" enthusiasts.

The developments and improvements are expected to be completed by Aug. 30.
