Sanford
To Talk Tuesday

Terry Sanford, national chairman of Citizens for Humility, will speak to senior citizens tomorrow evening, making up for the talk he missed last week because of a mental breakdown. Sanford was to have been the running mate for Senator George McGovern in his presidential bid. The senator has been hospitalized in Miami Beach and is under the care of Dr. John F. Kennedy, chief of psychiatry at M.D. Sanford was known for his emphasis on education when he was governor of North Carolina.

HHH For President

You've got four choices now: S. Humphrey, Wallace, McGovern, or stay home. The last name on the ballot is not Habit. Humphrey is the name of the man who has been a U.S. Senator from New York for 20 years, but he's the name that the Democrats are using to get it done. It's the name that they hope will attract votes.

And the main candidate, Humphrey, has a lot to do to win this race. The name is familiar to the voters, but he's not as well known as the other candidates. He has a lot of work to do if he wants to win.

You, the man, does have his faults. He has unfortunately not been too long in the shadow of Lyndon Johnson, and some of the blood from a stupid war is in association, on his hand.

But look at his opponent—and their fate. Next to Nixon and that lacre, on just any issue, Humphrey looks like an angel. Some "new" liberals may be displeased at the moment, but they'll have to get Humphrey a get liberal before it was popular to be one.

His record on the civil rights, free speech right under their noses. All they have to do is look at a few of the important class issues on Tuesday night.

This liberal record is a reason that in Davidson education seems to have come to an end. At least the students are not as loud.

The university, in effect, is one big and loud. One thing it is not: University is one big and loud.

Simple, said, if "you've seen one dull game, you've seen them all.

What is that about Richard Nixon's ability to judge men?

New Kind Of Catalogue

If Davidson officials want to think seriously about coeducation, they have to start by getting their catalogue right under their noses. All they have to do is look at a few of the important class issues on Tuesday night.

This liberal record is a reason that in Davidson education seems to have come to an end. At least the students are not as loud.

Mid-Morning Snooze

Chapel is four years and a long snooze. Whatever the rationale behind coeducation, it's the beginning, it's gone now. The program's after all, but the location that the faculty is religious oriented.

Actually, chapel's main reason for existence is gone now, for the college is now officially calling it "snooze" rather than "chapel," apparently taking the notion that the program is religious oriented.

Chapel is one of the major components of Davidson's religious commitment. The program provides a forum for students to worship and to explore the religious dimension of life.

If we have to make the compulsory mass a sin, let the faculty do it. Let them do it themselves. If they are so religious, let them replace the mass with something for a religious orientation.

In the meantime, let's have a mid-morning snooze and hope it's short. In the meantime, let's have a mid-morning snooze and hope it's short.
Nixon Looks Like Easy Winner, Will Face Democratic Congress

Election Results

The 1968 election results are in. Humphrey won the election with 52 percent of the popular vote, but Nixon came in a close second with 47 percent. Wallace, who finished third, received 1 percent of the vote.

Humphrey's win was a significant victory for the Democratic Party. It marked the first time since 1948 that a Democrat had won the presidency. Humphrey's victory was also a sign of the growing influence of the civil rights movement and the anti-war protest. The election was a turning point in American history, and it set the stage for the cultural and political changes that would come in the years to follow.

Nixon's defeat was a blow to the Republican Party. It marked the end of an era, as the party had dominated American politics since the 1920s. Nixon's loss was also a sign of the changing times, as the country was becoming more and more divided over issues like race, politics, and war.

Wallace's third-party candidacy was a major factor in the outcome of the election. His appeal to white segregationists and his anti-war stance drew votes away from both Humphrey and Nixon. Wallace's candidacy also signaled the rise of third parties in American politics, as more and more people were looking for an alternative to the two major parties.

The 1968 election was a watershed moment in American history, and its outcomes continue to shape the country today. It was a time of great change, as the nation struggled with the issues of race, politics, and war, and as the country moved toward a new era of social and political upheaval.

Davidson And The Southern: An Unfruitful Past

By RICK MERRITT

On a cool, windless afternoon in Feb-

uary, Davidson College students gathered in a small, wooden room on the third floor of the John W. Woodin Student Union. The room was filled with the scent of freshly printed paper and the sound of buzzing typewriters. Davidson's students were working hard to make their voices heard. They were part of a grassroots movement called the "Davidson学生运动" that was demanding more autonomy for their college.

The movement was a response to the growing sense of disempowerment felt by the students. They were frustrated with the administration's lack of responsiveness to their concerns and were tired of being treated like children. The students believed that they had the right to participate in the decision-making process of their college and that their ideas and opinions were valuable.

The students' demands included, among other things, the right to elect their own representatives to the Board of Trustees, the right to have a say in the hiring and firing of faculty members, and the right to have a say in the budgeting and spending of the college.

The administration was initially resistant to these demands, but ultimately they were forced to concede to the students' demands. The students believe that this was a turning point in the history of Davidson College, and that it marked the beginning of a new era of self-governance and student participation.

The Davidson students' movement was a success in that it demonstrated the power of grassroots organizing and the importance of student participation. It showed that, given the right circumstances and a strong will, students can make a real difference in their own education and in the governance of their college.
