Spencer Elected Head Of Student Body

Three-MAN Commission
Thomas Glasgow of Charlotte Also Appointed

Dr. Archibald Carisey of Davidson, president, has announced the
creation of a three-man Committee on the Student Body to
accomplish the wishes of the student body and the suggestions
made by the student body. The Committee is composed of three
members, is responsible for the personnel of the student body,
and is made up of two members of the student body and one
member of the faculty. The committee will consist of two
members of the student body and one member of the faculty.

Other Appointments
Mr. Thomas Glasgow of
Charlotte was appointed at the same
time as Dr. Archibald Carisey.
Lewis of Charlotte will continue
his position as President. He will
succeed Dr. Archibald Carisey.

In his new position, the
President will be responsible for the
student body and the suggestions
made by the student body. The
President will be responsible for the
student body and the suggestions
made by the student body.

**Question of the Week**

A question which has received such discussion recently in regards to a movement at one of the Pittsburgh Seminaries and one that could be applied to this community is the topic of our discussion for this week. It is, "Do you think that school officials should allow certain games to go on without rule enforcement?"

There is no clear answer to this question. The games that could be mentioned for this discussion are those involving the use of dice, cards, or similar devices. It is possible that such games may be enjoyed by the students and provide a means of relaxation. However, it is also possible that such games may be used to engage in activities that are not considered appropriate by the school officials.

**Summer School Session Starts Middle of June**

Davidson College, 1939 session of summer school will open on June 14 and will continue for six weeks, closing June 29.

All of the courses offered will continue to emphasize the study of Latin and Greek languages. Special study will be given to these languages and other subjects, including Latin and Greek literature, history, philosophy, and political science.

In addition to Latin and Greek, there will be offered a course in modern languages, with an emphasis on French and German. There will also be offered courses in mathematics, physics, and chemistry.

In addition to the courses offered, there will be available a number of special lecture courses and seminars. These will be offered in the fields of history, literature, and philosophy.

The courses offered will be available to students who are enrolled in the summer school as well as to those who are not enrolled.

Baseballers Continue to Have Drills

Light Drills Feature Practices McKeever Coach in Labeld's Field

Coach Blake Latoff's baseball team was working on the back of his team this week with light training exercises. Monday afternoon the batteries were divided into two sets with the pitchers continuing to throw for the next series of games. Each afternoon each half of the team was put through a few drills that consisted of satisfactory batting practice with the pitchers also taking part in the exercises.

The infield is all up and no moving team has been picked for the last two games have been divided with the back stop having been lifted for the first time this year. The defensive work has been divided among the back four players, hitting another factor.

In the outfield, there are Ruby [illegible] in the first day of practice with Ellis, and Green, both of these being in the back of the pack again this year; Lyman, who is also among the back players, this year, is a hard one to fill in the right hand field position this year. The catchers need a good one to replace the second baseman Ants, and pitcher. The baseball team will practice this week.

Fiji's Pace Intramural Sport Drill

Seniors Lead in Class Standings

With the intramural races being held this week, the men are out on front of the pack, but the Phils and the Kappa Sigs. Seniors Lead

In the intramural races, the Phils are far ahead of the next man with the seniors leading by winning the intramural races. The Kappa Sig and the Phils and the Psi Diffs before their respective teams. The men's races held on the 15th and the Psi Diffs lost the first. These events proved the Phils and the Psi Diffs for the Kappa Sig came in the running for a runaway victory in the last competition.

In the volleyball, which is now in its last week, the seniors will be the only team that is still active in the present, with the Johnsons and the Sophomores being the last active team.

Fiji's Potent Lineup

The Fiji team is one of the most potent lineups in the university for the year. Led by Charles Egerton, the team will be the one to watch. The Fiji team has been working on the back of their team for the last two weeks, and although they will handicap this season, it is to be a great deal of work.

Kittens Begin Ball Practice

Baseballers' Intramural Team

Shepard Puts Fresh Through Light Workouts

For our next competition, the baseballers' Intramural Team will be ready to go with Charles Egerton leading the charge. The team has been working hard on the back of the pack, and will be ready to take on the Phils and the Kappa Sigs in the upcoming games.

Kittens Begin Ball Practice

Kittens will get started on their baseball practice this week, and the team should enjoy a good practice. Among those listed for the practice are Ruby Taylor, Ellis, and Green. The team will practice this week.

**Discussions Of Site**

The Building and Grounds Committee met last Tuesday evening to discuss plans for the new features of the site. This committee is composed of Messrs. David M. H. and Schuyler A. K. of Newport. Mr. R. S. Arrowood of Converse made an interesting report on the site. The committee had many ideas on the future of the building.

**Question Is Put to Young Students**

**Students Give Opinions On**

From the University of Texas in Austin comes the following: "I am in a class of 500, with 200 members of my class attending in every class of the year."

This development seems interesting. If you can find the time to attend classes at your own university, you will be interested in the opportunity. The University of Texas has many wonderful opportunities to attend classes and in this type of school setting. Your experience may be just what you need to have fun.

According to the report, several students have been interviewed and are interested in attending classes at your university. Although the University of Texas does not have a specific Student Government Committee, it is highly recommended to attend classes at your university. Many students have attended classes at your university and have studied in various departments.

Even though the poll reveals that a considerable majority who believe attending classes at your university is the best in the nation, there is no definite conclusion on the topic. If the University of Texas is interested in the possibilities of attending classes at your university, they are likely to be interested in attending classes at your university.

**Pi Kappa Phi**

Pi Kappa Phi, brother of the fraternity, has been founded at the University of Texas for the past two years. This fraternity is not only a social organization, but also a community service organization.

Pi Kappa Phi brothers have been found during the week-end at various locations across campus. At the recent fraternity meeting, the brothers discussed the idea of having a fraternity house in the university community. Although there was some interest in the idea, the brothers did not decide on a location for the fraternity house.

**Kappa Sigma**

Kappa Sigma has been founded at the University of Texas for the past two years. This fraternity is not only a social organization, but also a community service organization.

Although there was some interest in the idea, the brothers did not decide on a location for the fraternity house.

**Kappa Alpha**

Kappa Alpha has a party Pi Kappa Phi at which the following girls were present: Barbara Baker, Barbara Moore, Sandra McGavock, Betty Smith, and Nell Sloan. This party was attended by Brooks, Bates, and Walker. The party was held on the campus of the University of Texas and was attended by a large number of girls.

The brothers of Pi Kappa Phi and Kappa Alpha visited the Alpha Phi chapter on Thursday evening. The brothers were entertained by the Alpha Phi chapter and had a good time at the party.

Shaw Smith Interviews
Star of Tobacco Road

John Barton, "Jester Lester" of "Star of Tobacco Road," was in town last Sunday when this widely-distributed play was first presented. Mr. Barton revealed that on his visits to the city this was the first time he had seen the pages of the Davidsonian and that he had just one point of contact with the college. It has been said that John Barton is the star of "Tobacco Road," but John Kenton, children's old character who was once vying with nothing for the lead in radio, is said to be just like one of these Davidsonians. He has been in and out of the film business and is an expert in the photography department. He has had many chances to be a leading man in the pictures, but he has been content to take the smaller parts in order to gain experience.

The play was produced by the local radio station and has been very successful. The cast is composed of local talent and includes several Davidsonians. The play is a realistic portrayal of the life of the tobacco workers and is sure to be a hit with audiences.

This is a remarkable achievement for a young man who has had no experience in the theater. The play is a valuable contribution to the local culture and is sure to be a success.

-THE DAVIDSONIAN
